WELCOME TO THE CATALOGUE OF HIGHER EDUCATION INSTITUTIONS IN THE CZECH REPUBLIC

Quality assurance, relevance, openness and effectiveness belong to the main priority areas of the Czech Ministry of Education, Youth and Sports in the field of higher education. In line with this strategy the Czech higher education institutions are expanding a range of opportunities for international student mobility and academic cooperation. Presently, over 39,000 foreign students are studying in the Czech Republic and their interest is growing as the offer of study programmes and courses taught in foreign languages is increasing.

This brochure is aimed to help both the students from all over the world who are interested in studying in the Czech Republic and the professionals who are looking for partner universities in the Czech Republic for future cooperation. It provides a brief description of the Czech higher education system and presents the profiles of most of the Czech higher education institutions. If you are looking for universities with long-standing reputations, unique conception and interesting specializations, just read on, consider your options and make things happen!

REPUBLIC

HIGHER EDUCATION SYSTEM IN THE CZECH REPUBLIC

HIGHER EDUCATION SYSTEM IN THE CZECH REPUBLIC

There is a long tradition of higher education in the Czech Republic, dating back to the 14th century. Charles University was a key institution in what might be described as the “medieval European higher educational area,” and before World War II the former Czechoslovakia was among the most developed countries in the world with a strong network of high quality schools and universities. Czech

higher education system has experienced a number of deep, dynamic changes and extensive development in the last years. From a strictly uniform highly centralised and ideologically bound system under the communist regime, it has been changed into the much more diversified and decentralised system with full academic freedom and self-governing bodies, open to Europe and the world.

Higher education forms the highest level of the Czech education system. It is governed by the Higher Education Act and the central governing body is the Ministry of Education, Youth and Sports www.msmt.cz. The quality of higher education is fostered by the Accreditation Commission www.akreditacnikomise.cz.

HIGHER EDUCATION INSTITUTIONS

In terms of the founder higher education institutions can be public, state and private. The public and private higher education institutions come under the responsibility of the Ministry of Education, Youth and Sports, while state institutions (University of Defence and Police Academy) are legally established under the control of the relevant ministries.

In terms of the study programmes they offer, higher education institutions may be non-university and university type. Non-university institutions offer mainly Bachelor's study programmes. They can also offer Master's programmes, but not Doctoral programmes. They are not divided into faculties. Universities may offer all types of study programmes and carry out associated scholarly, research, developmental, artistic or other creative activities.

DEGREE SYSTEM AND FORM OF STUDIES

Higher education is provided within the framework of accredited study programmes in accordance with the relevant curricula and forms of studies. The form of study can be full-time, part-time or a combination of both.

HIGHER EDUCATION INSTITUTIONS PROVIDE EDUCATION AT 3 LEVELS:

Bachelor's degree programme (3 to 4 years) is the first cycle of higher education. It is focused on preparing

students for future employment or for continuation in Master's degree programmes. Its completion is viewed as a full higher education degree.

Master's degree programme following after a Bachelor's degree programme (1 to 3 years) and full Master's degree programme (4 to 6 years) is focused on theoretical knowledge, its application and on the development of creative skills. In artistic disciplines the focus is on the development of creativity and talents.

Doctoral degree programme (normally 3 years) is designed for Master's degree holders and focused on scientific research and independent creative activities in research and development and in artistic disciplines.

Most higher education institutions use the ECTS credit system (European Credit Transfer System), where each course is assessed using a number of credits which reflects its demands. This system allows credit transfer among universities and enables students to study and gather credits at various.

TUITION LANGUAGE

The main tuition language is Czech, however the range of study programmes delivered in foreign languages (especially in English) is expanding in order to cater for international students. The Institute for Language and

STUDY IN THE CZECH REPUBLIC

HIGHER EDUCATION SYSTEM IN THE CZECH REPUBLIC

Preparatory Studies www.ujop.cz offers teaching of Czech language to foreigners and preparing them for university studies.

ACADEMIC CALENDAR

The academic year is divided into two semesters — a winter semester, starting in October, and a summer semester, starting in February. A semester normally consists of 15 weeks of teaching followed by an examination period.

ADMISSION

Higher education is available to all applicants with a completed secondary education and after fulfilling the entry requirements set by the given higher education institution. Access to Bachelor's studies is conditional on completing secondary education with a school leaving certificate. In the case of Master's degree programmes following upon Bachelor's degree programmes, only applicants who have completed the respective Bachelor's degree courses or hold equivalent qualifications are considered. The prerequisite for admission to a Doctoral degree programme is the completion of an appropriate Master's degree programme or an equivalent qualification. Any further requirements as to the knowledge, abilities or talent or educational achievement of applicants are the responsibility of the higher education institutions themselves.

HOW AND WHEN TO APPLY

Students who want to study a degree programme should first check the specific entry requirements at the website of the higher education institution of their choice and then apply to the institution accordingly. The deadline for submitting applications is the end of February or March, but there might be some later deadlines too. Applications normally include completed electronic application form, copies of relevant diplomas and scores from language proficiency test. For international applicants there are usually no entrance examinations and applicants' materials are assessed by an applications committee. If there are entrance examinations, these are mostly held between June and September, earlier for Arts studies.

International students who wish to study in the Czech Republic as exchange students have a great number of possibilities to choose from study stays within the framework of various European and non-European mobility programmes, tailored-made study-abroad programmes, cooperation arrangements between university networks, summer schools and so on.

RECOGNITION OF FOREIGN EDUCATION

Graduates of degree programmes at international universities wishing to obtain recognition in the Czech Republic are required to submit a written application for the recognition of foreign education. The recognition of the diploma, qualifications or parts of study programmes

HIGHER EDUCATION SYSTEM IN THE CZECH REPUBLIC

STUDY IN
THE CZECH
REPUBLIC

then depends on the examination by a relevant public higher education institution providing a study programme similar in its contents. The Ministry of Education, Youth and Sports will issue a certificate of recognition of education only if it was acquired in a state with which an agreement on the recognition of document equivalence has been concluded and the ministry is authorised by this agreement to recognise a document. The Czech National Academic Recognition Information Centre www.msmt.cz/ provides information and consultations on the recognition of qualifications in the Czech Republic.

TUITION FEES

Higher education at public and state institutions is free of charge for citizens of all nationalities, with the following exceptions:

- fees for administration of admission proceedings;
- fees for extending the duration of study beyond a set limit;
- fees for the study of an additional programme;
- fees for study in a foreign language.

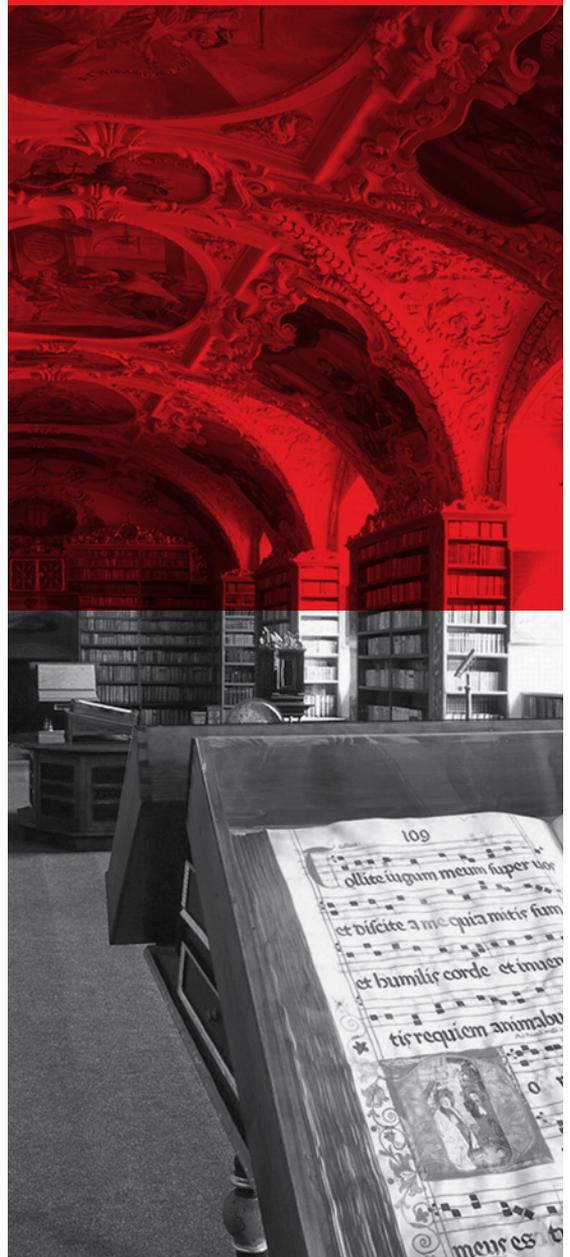

At private institutions of higher education, all students are required to pay tuition.

The tuition fees for study in a foreign language or at private institutions differ from 1 000 – 15 000 USD per academic year and the amount depends on the relevant institution and study programme.

SCHOLARSHIPS

A range of scholarships is available enabling international students to come to the Czech Republic for periods of varying length. Foreign students can receive a scholarship under bilateral international agreements on cooperation in the field of education (offered by the Ministry of Education, Youth and Sport of the Czech Republic) or within the framework of the Foreign Development Aid (offered by the Government of the Czech Republic). Information about these scholarships is available at Czech diplomatic missions abroad. Some higher education institutions offer scholarships under bilateral university agreements, for excellent study results or in difficult social situation of the student. More details can be obtained from the International Relations Office of the relevant university. Students can also take the advantage of a number of mobility and scholarship programmes and funds (e.g. Erasmus, Erasmus Mundus, Aktion, CEEPUS, Visegrad Fund, Fulbright Commission).

About

Academy of Arts, Architecture and Design in Prague (AAAD) offers modern art education based on long-lasting tradition. Its graduates are well prepared for professional careers as free-lance artists, versatile designers or creative architects. Besides degree studies in Czech and English AAAD offers also courses for the public (painting, drawing, basics of sculpture, book-binding, etc.) and semestral studio courses for foreigners.

Good at

Main reasons why to study at AAAD are following: history and reputation, studio-based tuition, up-to-date study offer, inter-disciplinarity, craftsmanship tradition, new technologies, experienced academic staff, outstanding theoretical background, open teaching approach, creative environment, friendly atmosphere, future perspectives.

For international students

International students appreciate especially multicultural ambience and challenging environment at AAAD, its location, opportunities for networking, communication in English, variety of courses, workshops, library, IT background, exhibition possibilities and involvement in different competitions.

International cooperation

AAAD's priorities are continuing internationalization of academic environment and tuition, development of joint programmes and international projects, development of fruitful contacts with leading art schools from all over the world, keeping of present high level of student and teacher mobility, support of traineeships abroad. Every year AAAD accepts about 70 international exchange students under different schemes and conditions (Erasmus, CEEPUS, governmental scholarships, self-paid studies, reciprocal exchanges). AAAD is a year-long member of Cumulus Associations (International Association of Universities and Colleges of Art, Design and Media founded in 1990, having 200 members from 48 countries).

ACADEMY OF FINE ARTS IN PRAGUE

STUDY IN
PRAGUE

About

Academy of Fine Arts in Prague was established in 1799 by decree passed by Emperor Franz I. With its rich history and tradition, the institution played a significant role in the formation of a modern Czech culture of fine art. The Academy of Fine Arts has the status of a public university and it is well placed to offer intensive, focused support for the development of talent. It has its own spacious north-facing historical ateliers with overhead lighting, as well as various technological workshops. It offers an individual approach and a clear system of teaching, within the framework of which it is possible to transfer between ateliers and disciplines.

Good at

Academy of Fine Arts in Prague offers these Art Fields: Painting Studio, Drawing Studio, Printmaking Studio, Sculpture Studio, Figural Sculptures and Medals Studio, Intermedia Studio, New Media Studio, Restoration of Painted Artworks Studio, Restoration of Sculptures Studio, Architecture Studio.

About

The Academy of Performing Arts is the biggest and oldest Czech university level school of drama, film, TV, multi-media, music and dance studies. Theatre Faculty covers a wide range of disciplines: acting, directing, puppetry, dramaturgy, scenography, theatre-in-education, theatre management and theory and criticism. The school educates future theatre professionals, specialists in the field of culture, communications, media etc. The school theatre DISK is a regular repertory theatre, final year students play about 10 productions monthly. Dramatic Arts on the MA level are available in English language. International students can study at DAMU in the framework of European exchange programmes or enrol as individual short-term students.

Film and TV School has been training practically all filmmaking talents creating Czech film for over 60 years. FAMU – with its traditions of artistic mentoring under top practitioners, its excellent technical support, and its deep curriculum spanning ten departments devoted exclusively to audio-visual media – is now open to foreign students as never before with short-term courses, exchanges, and world-class Masters Programs available in the English language.

Music and Dance Faculty maintains and develops the Czech musical and Dance traditions. While the field of music is more focused on classic performance, the field of dance mainly reflects modern trends. Its professors belong to the exceptional artistic personalities. It emphasizes high quality of its graduates as professional soloists and performers. The individual fields of study are offered through eleven departments: Composition, Conducting, Voice and Opera, Keyboard Instruments, String Instruments, Wind/Brass Instruments, Music Theory and History, Dance, Pantomime, Musical Sound and Percussion Instruments.

Good at

Several prominent artists and writers, namely Jindřich Honzl, Jiří Frejka, František Troster and others, had conceived the school itself during World War II. Professors of the older Prague Conservatory also supported the idea of transforming the former maestro school into a higher school of university level. Writers, artists and other film creators with practical experience in the film industry (namely Jaroslav Bouček, Karel Plicka, Otakar Vávra, Ivan Olbracht, Vítězslav Nezval, A. M. Brousil and others) watched over the school's future curriculum, trying to make it responsive to new trends in post-war film development. Later the Film studio and the theatre Disk, which belonged to the Theatre Faculty, were added. The Opera studio of the Music Faculty also uses the theatre Disk. During the last years AMU has cultivated what is most valuable: talent, free invention and imagination. The AMU contacts around the world are accompanied by the high evaluation of all faculties and demonstrable results internationally.

For international students

Detailed information is available on the website of the individual faculties.

International cooperation

Today AMU has unlimited contacts with the whole world. International students can study at AMU in the framework of European exchange programmes or enrol as individual full or short-term students.

About

AKCENT College offers two Bachelor degree programmes: English as a Foreign Language and Czech as a Foreign Language, both as full-time (daily) and part-time (distance) programmes. College graduates are qualified to teach English / Czech to adult learners in the context of language schools or in-company courses. Over the three years they gain extensive knowledge of a range of linguistic, pedagogical and psychological disciplines, and an awareness of a range of methodological approaches to foreign and second language teaching.

Good at

Extensive supervised teaching practice with real language learners spread evenly over the three years allows graduates to develop a range of practical teaching skills and gain an insight into learning and teaching processes. In addition to high proficiency in the language of their specialisation, graduates develop functional knowledge of another foreign language (at A2/B1/B2 levels of the European Reference Frame for Languages) that will help them to be flexible and find employment. The employability is further enhanced with a range of international teaching certificates (such as Cambridge CELTA) the College offers as elective courses.

For international students

AKCENT College offers intensive summer courses or one-term courses in Czech as a foreign language. The language programme of 20-30 teaching hours a week is enriched with optional events covering Czech culture, history and topical problems of the Czech society.

We also provide tailor-made courses preparing foreign students for studying at Czech universities.

International cooperation

AKCENT College holds an Erasmus Charter for Higher Education (ECHE) 2014 - 2020.

About

Located in beautiful baroque palaces in Prague's historic Malá Strana, Anglo-American University (AAU), founded in 1990, is the oldest private institution of higher education in the Czech Republic. It provides personalized, distinctive university education in English, based on the best American and British academic traditions that form future leaders, citizens of the world and high profile individuals ready to get globally engaged in world matters. AAU offers a wide-variety of undergraduate and graduate programmes.

Good at

AAU has become a centre of academic excellence where students from all over the world come to pursue academic study in an environment that encourages intellectual curiosity, leadership, cooperation and respect for cultural and national diversity. AAU prides itself on having core international faculty trained at fine universities worldwide, including the Ivy League.

For international students

For two decades, AAU has accepted students from all over the world to experience a semester at our campuses, surrounded by Baroque architecture and at walking distance from Charles Bridge and Prague Castle. AAU's most visible characteristic is its diverse student body representing dozens of countries every semester.

International cooperation

AAU is a part of the Erasmus programme and also offers exchanges with a number of partner universities outside the EU on the basis of direct university agreements, e.g University of Hawaii at Hilo, Murdoch University in Australia or Kyung Hee University in Korea.

About

Architectural Institute in Prague (ARCHIP) is the only college of architecture in Central Europe to offer a complete 3-year Bachelor programme in English. ARCHIP started from the academic year 2011/2012 and provides a truly international environment, with students representing more than 20 different nationalities.

Good at

The concept of teaching is based on putting architecture in the context of other disciplines. The faculty features recognized Czech architects

ARCHIP

FACTS AND FIGURES

Founded: 2010

Kind of institution: Private

and other professionals. ARCHIP also promotes the use of architectural models, teamwork, presentation skills, and debate. ARCHIP's premises are based close to the city centre, in a former printing workshop – providing an inspirational design environment.

For international students

ARCHIP benefits from being situated in Prague, whose architecture and urbanism have evolved for a thousand years; from Romanesque architecture to modern and contemporary buildings. Prague is reputed to be one of the most magnificent cities in the world, with a historical town centre that has been on UNESCO's list of cultural heritage sites since 1992.

International cooperation

The study programme is supported by many other activities, international contacts and events. ARCHIP co-founded "reSITE" international planning festival, runs summer workshops and cooperates with different foreign institutions. ARCHIP also offers CIEE Study Abroad programme for U.S. students – Global Architecture + Design.

About

Art & Design Institut (ADI) offers a choice of six creative subjects - Painting, Graphic Arts, Photography, Spatial Art, Intermedia Studio, Multimedia. From these six subjects students shall individually select two which contribute to their further development. The school offers six theoretical subjects which are compulsory for all the students - Art History, Marketing and Trade of Artworks, Museums and Gallery Studies, Philosophy of Artistic Expression, Psychology of Art, Cultural Anthropology and Art.

Degree programmes taught in English: Not available

Total number of students: 70

International students: 24 exchange

Scholarships: Not available

Range of tuition fees: 3 500 USD/year for degree programmes in Czech language

Admission success rate: 98 %

Website: www.artdesigninstitut.cz

Contact email for international students: recepce@artdesigninstitut.cz

Contact email for international cooperation: recepce@artdesigninstitut.cz

Good at

All of the subjects are taught by the high quality teachers who are active renowned artists and exhibit their work in prestigious galleries worldwide eg. rector prof. Knížák, prof. Beran, prof. Hodonský, prof. Šejn). ADI offers positive and friendly environment for prospective students.

For international students

The main language of instructions is Czech language. The study of art does not need an excellent knowledge of Czech language it is the international one. Basics of the Czech language are necessary just for the theory lessons. The main aim of ADI is to prepare their students - future artists to create valuable artworks as well as to promote employability of graduates.

International cooperation

ADI is completely new higher education institution in the Czech Republic that is ready to joint all the possibilities of international cooperation. Getting started in October 2014.

About

The College of Banking (BIVŠ) is the oldest private higher education institution in the Czech Republic. It dates back to 1990, when the market environment originated, and it was necessary to educate specialists from banking and financial sectors. At that time, as a part of the CNB (Czech National Bank), and now as an independent institution with accredited study programmes, it offers students a wide range of subjects, not only in the area of finance but also economics, management, IT, law and public administration. We also offer programmes such as commission broker and property valuation. Besides courses in the Czech language, two programmes – Banking management (Bc.) and Finance (Ing.) – are taught in English and Russian.

FACTS AND FIGURES

Fields of study: Banking management and Finance

Founded: 1999

Kind of institution: Private

Degree programmes: Bachelor's / Master's

Good at

Other advantages of studying at BIVŠ are wide range of fully accredited study programmes, high-quality lecturers (from public universities and working experience) and international environment.

For international students

Bachelor's programme at private university takes 3 years in form of either presence or combined study. Students with completed high school education with leaving examinations, eventually with university diploma can be admitted for Bachelor's study. Follow-up Master's programme at private university takes 2 years in form of either presence or combined study. For follow-up Master's programmes can be accepted students with completed Bachelor's study, or Master's diploma.

International cooperation

A crucial role in the BIVŠ's international activities is played by exchange programmes supporting student and academic staff mobility mainly within Erasmus and Erasmus Mundus programmes.

Degree programmes taught in English:

About

Brno International Business School is a private educational institution offering the finest higher education studies focused on economics, management and law. The school was founded in 1998 by associate partners from Great Britain and the Czech Republic and currently ranks among the largest private business schools in the Czech Republic with over 2 400 students and 2 700 graduates.

Good at

The school is professionally specialized in both economic-managerial and legal fields. In the case of economic-managerial programmes, it belongs among the top Czech Republic providers in the field of managerial education in strategic management. In the case of legal programmes, the school provides high quality bachelor and master level courses in commercial law in general and further on international commercial law.

For international students

Its British programmes, validated by the Staffordshire University, are delivered in Czech and are therefore suitable esp. for students from Slovakia, or foreign students with an appropriate command of the Czech language.

International cooperation

The school cooperates closely, in teaching and research, with numerous foreign universities: Staffordshire University (GB), Nottingham Trent University (GB), University of Jyväskylä (FIN), Jönköping International Business School (SWE), Vysoká škola manažmentu (SK) etc. It has also developed close cooperation with the British Chamber of Commerce in Prague.

About

With its excellent research outcomes, international recognition, and hundred-year tradition, Brno University of Technology (BUT) ranks among the most sought-after universities in Central Europe. It offers a broad range of engineering, science, economics, and art programmes and belongs to internationally respected educational, scientific and research institutions. It has 8 faculties and 3 university institutes.

Good at

With almost 24 thousand students, BUT is one of the largest universities in the Czech Republic offering tertiary-level education in 75 accredited Bachelor's, Master's and Doctoral degree programmes. In recent years, BUT has been listed in QS Top Universities rankings - in 2013 it reached 101-150th place in Civil & Structural Engineering, 302nd place in International Students and 339th place in Engineering & Technology. BUT has also been awarded the ECTS and the DS Label by the EU.

For international students

BUT offers its students excellent background for study as well as other activities. Over the last few years its halls of residence have been in the TOP 3 in national competition. BUT also boasts modern sports grounds, e.g. the only athletic stadium in the country meeting Olympic standards.

International cooperation

The university focuses on cooperation with both EU and non-EU partners and is engaged in various education programmes (e.g. Erasmus, CEEPUS, Aktion, etc.). Thanks to newly established research centres, BUT is involved in projects whose aims include increasing the number of international scientists at Brno universities.

About

The Business School Ostrava belongs to the oldest private educational institutions preparing specialists in the Czech Republic, in particular for the practice. It offers a three-year and a five-year study full-time and part-time accredited degree programme in Economics and Management, study of Entrepreneurship, Management in Trade and Informatics and the Internet in the Business.

Good at

The school prepares professionals for key roles in the business profession; e.g. entrepreneurs, owners, administrators, leaders, managers, producers and dealers. The school also operates its own business incubator and student's residence.

For international students

Activities of Erasmus programme represent internationalization tools for conducting institution's competitiveness in the context of dynamic academic and business world. The school was awarded DS Label in 2006 and 2009. The Business School Ostrava has accreditation recognizing results achieved significant and accredited the study programme in Russian and English.

International cooperation

The Erasmus course including 5 subjects (6 ECTS credits each) is provided to international students coming to study at the Business School Ostrava within the Erasmus programme. To apply for studies at the Business School Ostrava you need to send an Erasmus application form, learning agreement, transcript of records to ruzena.dvorackova@vsp.cz.

About

CEVRO Institute prides itself on providing an elite education. Our accredited programmes focus on Bachelor's and Master's degrees in political science, international relations, and public administration. Within these programmes students familiarize themselves with a broad range of relevant subjects, including economics, sociology, political philosophy, law, and modern methods of management and marketing. Practical courses are reinforced with theory-oriented courses, and students have the opportunity to choose a wide range of electives. Through our study abroad programme, foreign students enrich our classes with their differing life experience and perspectives. Our team includes elite professors headed by the directors of the degree programmes – professionals with respected domestic and foreign reputations.

Good at

The private college of the CEVRO Institute seeks to be extraordinary. We are proud that our college is private and have created an academic community where students get individual attention from their professors. We deliver a quality education to our students, who tend to be quickly socialized with Czech students, who are keen to help foreign students as buddies. CEVRO Institute is located in the centre of Prague. While studying in the modern and well-equipped CEVRO Institute premises, you can enjoy the wonderful atmosphere of Prague.

For international students

Exchange students may choose several English-taught courses, which are available together with other useful information for foreign students (application procedure, application deadline etc.) at www.cevroinstitute.cz/en/Section/study/courses+for+international+students/.

International cooperation

CEVRO Institute has a number of agreements with European universities that establish international cooperation in the field of academic exchange within the Erasmus programme. Besides, CEVRO Institute has established cooperation with several overseas universities to promote academic exchange. CEVRO Institute seeks to enlarge international cooperation and encourages students from foreign partner institutions to study at CEVRO Institute.

About

Founded in 1348 by the Holy Roman Emperor Charles IV, Charles University has a long-standing tradition. Originally, it had four faculties: the Faculty of Arts, Theology, Law and Medicine. Today, it has 17 faculties (14 in Prague, two in Hradec Králové and one in Plzeň), 3 university institutes, 6 other departments for education, science, research, development, creative activities and information services and 5 university-wide special facilities. The university is the most productive scientific institution in the Czech Republic. It places great emphasis on international cooperation with prestigious educational and scientific institutions. It is one of the largest and oldest European universities using contemporary perspectives, modern methods and current data.

Good at

With more than 51,000 students, almost 8,000 PhD students and nearly 4,000 publications in the Web of Science database per year, Charles University promotes the Humboldtian ideal of higher education. It is a close community of research and education, in which both students and professors take part in research and educational activities.

For international students

Charles University is the most internationally respected university in the Czech Republic featuring a relatively high rate of international full time students, almost 15 %, and this number tends to grow. In both Shanghai (ARWU) and The Times Higher Education Supplement World University Ranking (THE), Charles University is the only Czech institution of higher education to rank among the top 500 universities. In the CHE multiranking, Charles University features 4 Research Areas of Excellence, which is the best result among higher education institutions from the new EU states. Its ranking make the university one of the 1, 5 % of the world's best universities and one of the Europe's Top 100 universities.

International cooperation

Charles University stresses international cooperation with prestigious educational and scientific establishments that occupy top positions in the international ranking in both research and education. It has entered into more than 1,600 bilateral agreements within the Erasmus+ programme and almost 200 interuniversity agreements with foreign universities. Charles University participates in a dozen of joint degree programmes with prestigious partners from Europe and overseas. Charles University is a member of the following international associations and university networks: EAU, IAU, EAIE, Coimbra Group, UNICA, IFPU, OECD/IMHE and Magna Charta Observatory.

COLLEGE OF BUSINESS AND HOTEL MANAGEMENT

STUDY IN
BRNO

About

College of Business and Hotel Management (CBHM) provides Bachelor's study programme in the length of 3 years in two fields in full-time and part-time form. This study creates conditions for gaining professional experience or continuing study in Master's degree programme. The main target of our institution is to prepare our graduates for managing, planning, organizational and supervisory functions in areas of higher management in hotels, hotels chain and other accommodation subjects.

Good at

The College offers a wide range of specialized subjects taught in English language for incoming students as well as subjects in Czech language. There is also a Laboratory on experimental and applied geography, which is a specialized research centre. We use the ECTS system of evaluation. We printed scripts for each of the English taught courses and created a complete e-learning in the English language.

FACTS AND FIGURES

Fields of study: Hotel and Tourism Management, Gastronomy, Hotel and Tourism Industry

Founded: 2006

Kind of institution: Private

Degree programmes: Bachelor's

Degree programmes taught in English:
1 Bachelor's

For international students

The CBHM is located in Brno, the Czech Republic's second largest city. The international airport in Brno serves regular flights. Brno offers a lot of cultural events for its visitors. There are many different kinds of cultural institutions and theatres. Students wishing to study at the CBHM must submit their application forms electronically through the school's website. The first round is before 28th February, next rounds are before 30th April, 15th June, 31st July and 30th September. The College accepts applications continuously according to its capacity options.

About

Our college is aimed at the Public Administration mainly. It prepares students for future employment in bodies of regional authorities as well as municipal administration units. Another field of study is Law and Legal Administration which prepares students for future employment in judicial units, courts, and the police. Our third study programme focuses on Management and Marketing in order to prepare students for future employment in banks, insurance companies, travel agencies or retail businesses.

Good at

Our advantage is a close cooperation with the important and successful employers in the region of South Bohemia and the Police as well as the regional authority and the cities of České Budějovice and Pířbram. Some of our successful students work as managers of hotels, mayors of towns in the Region of South Bohemia and business managers.

For international students

Unfortunately, we have not been accredited to teach any of the subjects within our study programmes in foreign languages. However, we are able to provide foreign students with the tuition in English.

International cooperation

We have been involved in the Erasmus programme since our College was founded and we strive for starting an intensive international cooperation mainly with our foreign partners in Slovakia, Austria and Germany.

COLLEGE OF INFORMATION MANAGEMENT, BUSINESS ADMINISTRATION AND LAW

**STUDY IN
PRAGUE**

About

College of Information Management, Business Administration and Law Inc. is one of the newly established private higher education institutions in the Czech Republic. The College was fully accredited by the Ministry of Education, Youth and Sport on the 29th of January 2002. The College offers three Bachelor Study Programmes in Information Management, Business Administration and Law.

Good at

The College offers unique combination of fields of study (in each field of study three aspects are combined – economic, legal and IT). The teaching staff comprises specialists with practical experience. The students value the professional approach of the students' office, availability of textbooks, e-mail communication with the teaching staff and the management of the college. There is a high standard of teaching focused on practical knowledge. Zero unemployment of the graduates.

About

The College of Karlovy Vary (COKV) offers a Bachelor's Degree Programme in Law Specialization which is divided into the 5 study branches: Law in Business, Socio-Legal Activities, Public Administration, Judicial and Notarial Administrative Activities, Forensic and Legal Activities.

Good at

COKV provides complete Bachelor education with continuous link to the university system of education considering the use in practice. The school is also an important partner to many institutions in the Czech Republic and through its pedagogical personalities participates in the work of groups of specialists in various departments of the Government (Education, Justice, Interior), the Parliament of the Czech Republic, higher education in general (The Czech Conference of Rectors, the Board of Higher Schools) and special legal organisations.

For international students

The Bachelor's Degree Programme is aimed at the education of specialists for particular administrative-legal profession in which the essential responsibility is a good orientation in the system of law and ability to apply particular segments of public and private law. Full-time form (3 years) includes compulsory practices. The studies are organized in the form of lectures, seminars and practical exercises. Part-time form (4 years) takes the form of consultations and lectures.

International cooperation

COKV participates in the Erasmus Programme and cooperates with Plymouth County Court in Great Britain, Notary Office in Germany, institutions in Slovakia etc.

About

College of Logistics is a private technical college of non-university type, offering – as the only college in the Czech Republic – the first two levels of tertiary education in the unique study programme Logistics (B3713 Logistics and N3713 Logistics).

Good at

The study programme's goals are:

To offer to applicants from various logistic system areas (forwarders, providers) and other areas the opportunity to gain tertiary education in the Bachelor's study programmes Logistics of Transport, Logistics of Services, Logistics of Tourism, Logistics of Aviation and Information Management - considering the fact that there is no other similar study programme available in the Czech Republic.

For international students

Not only for the graduates of Bachelor's degree programmes from the College of Logistics, but also for the Bachelors graduated at other institutions with ECTS standards, the Master's degree study programme N3713 Logistics is offered. The length of the study is two years and successful graduates earn a full Master's degree.

International cooperation

For more information please contact College of Logistics by e-mail: studijni@vslg.cz.

Range of tuition fees: 1 735 – 2 857 USD/ year for degree programmes

Admission success rate: 97 %

Website: www.vszdrav.cz

Contact email for international students: info@vszdrav.cz

Contact email for international cooperation: info@vszdrav.cz

About

The College of Nursing provides university education in the non-surgical health fields of General Nursing, Midwifery and Radiology Assistance. Our education is in line with EU directives and the graduates will have their qualification automatically recognised in EU countries. The Nursing study programme has all the attributes of modern nursing with an interdisciplinary and multi-profession nature. The programme encompasses healthy individuals and illnesses with an emphasis on a biopsychosocial viewpoint. Students are taught to make their own decisions based on their theoretical and practical knowledge and experience. More than 50 % of the programmes is dedicated to practical training and the teaching is founded on modern trends in these disciplines.

Good at

The college is well-equipped for the theoretical and practical teaching of both fields – with professional study rooms, theory classrooms, a lecture hall, a computer room with PCs connected to the internet and a library with extensive study literature. Professional work experience is undertaken for the most part in health and social care facilities in Prague. The college also co-operates with workplaces abroad (England, Germany) in exchange programmes. A large number of renowned specialists take part in teaching – doctors and university-educated nurses. The college issues its own publications and the teachers who work for us are also creatively and scientifically active.

For international students

The college participates in the Erasmus programme, but doesn't offer full degree programmes in English.

International cooperation

Erasmus and Leonardo da Vinci programmes. Working experience for the graduates in Italy and Germany.

About

The College of Physical Education and Sport PALESTRA is a private, recently accredited, non-university college, which enriches the offer of educational opportunities to achieve a Bachelor's degree with a focus on the area of physical education, sport and leisure time management. The curriculum is comparable with the university education systems abroad. It is implemented in a credit form, which is compatible with European credit transfer system. It covers the following fields of study: Sport and fitness specialist, Sport and leisure time management educationist.

Good at

The graduates become specialists in a various range of leisure time activities, organisers and managers of physical education and sport. The sport and fitness specialists have a possibility to make a career in sports and training clubs, sport associations, centres of regeneration, fitness centres, in travel trade, as well as specialist advisors in the field of health prevention, hygiene and injury prevention in a wide range of institutions focusing on sport activity. The graduates in the field of Sport and leisure time management educationist become specialists in children clubs, clubs for young tourists and technicians, in after school centres, school clubs, cultural and educational institutions for adults, charity organisations, social welfare facilities, humanitarian centres and refugee camps, social organisations and in travel trade and spa facilities, as well as consultants involved in free time, culture and physical education on the level of public municipal and state sector.

For international students

Please find more details at vstvs.palestra.cz/en/node/93.

About

The College of Polytechnics Jihlava is the only public higher education institution in the Vysočina Region. The aim of the 3-year Bachelor's degree programmes is to provide students with theoretical knowledge and comprehensive practical training. The language of instruction is Czech with English courses to complement the curricula. Applied knowledge and career guidance enhance graduates' employability. About 40 % of the graduates continue in follow-up Master's programmes.

Good at

Jihlava has a convenient geographic location, not far from the major cities. The region is renowned for its beautiful countryside and historical sights. Jihlava is the administrative, economic, industrial and cultural centre of the region; yet small enough to provide a personalized environment for both studying and living, and this at reasonable costs.

For international students

The College hosts 25 Erasmus exchange students from partner universities every year. International students proficient in the Czech language can also enrol in programmes taught in Czech. There is no tuition then. Jihlava is conveniently located between Prague and Brno, in the middle of the country. The size of the town and its friendly nature allow students to explore the local lifestyle, culture and history and settle in before long.

International cooperation

The College cooperates with higher education institutions, most often within the Erasmus+ programme and the International Visegrad Fund. In line with its orientation, the College focuses on applied science with emphasis on regional development. The College seeks opportunities to extend collaboration with higher education institutions both in Europe and in other parts of the world. Annually, over 60 College students spend a semester at partner universities, another 70 participate in international project weeks.

CZECH TECHNICAL UNIVERSITY IN PRAGUE

STUDY IN
PRAGUE

About

The Czech Technical University is the biggest and the oldest technical university in Central Europe, with more than 300 years of tradition, excellent research results, a great number of specialised labs and vast study resources.

Good at

CTU provides high-quality university education through an extensive portfolio of primarily engineering study programmes, and conducts basic and applied research and numerous scientific projects with great emphasis on industrial use and applications. The University cooperates with major global and local companies, including Škoda Auto, RWE, McKinsey&Company, Ernst&Young, PSJ and Tesco. This gives our students a good opportunity to work on collaborative projects during their studies, and helps our graduates to get a job with a leading international company.

FACTS AND FIGURES

Fields of study: Civil Engineering, Mechanical Engineering, Electrical Engineering, Nuclear Sciences and Physical Engineering, Architecture, Transportation Sciences, Biomedical Engineering, Information Technology

Founded: 1707

Kind of institution: Public

Degree programmes: Bachelor's / Master's / Doctoral

Degree programmes taught in English: 10 Bachelor's / 16 Master's / 8 Doctoral

About

The Czech University of Life Sciences Prague (CULS) is situated on a beautifully landscaped campus, with modern and spacious dormitories, canteen, several student clubs, central library, cutting edge IT technology and state of the art laboratories. CULS is one of the leading life sciences universities in Europe and as such is also a member of the Euroleague for Life Sciences (www.euroleague-study.org). CULS Prague is one of the top ten public universities in the Czech Republic and was awarded the Diploma Supplement Label in 2012, and the ECTS Label in 2013.

Good at

In a world where natural resources are being depleted at an alarming rate and where our planet's biodiversity is threatened, CULS puts emphasis on education and research in sustainable rural development and biodiversity conservation, sustainable use of natural resources and alternative energy production through use of solar energy and biomass. CULS educates specialists and leaders, who will be mindful of our environment, for the benefit of future generations.

For international students

CULS offers many study programmes in English. The added value of these programmes is reflected in the constant increase of overall student enrolment at CULS, particularly international students from Russia, Asia and Africa. Moreover, CULS is also a favourite destination for exchange students from around Europe, in the framework of the ERASMUS programme.

International cooperation

CULS actively cooperates with more than 160 universities around the world, including EU countries, Serbia, Turkey, Moldova, Russia, China, India, Vietnam, Cambodia, Mongolia, Argentina, Brazil, New Zealand etc. CULS is member of important European University Networks, e.g. Euroleague for Life Sciences (www.euroleague-study.org), Danube Rectors' Conference (www.drc-danube.org), Association of European Life Sciences Universities (www.ica-europe.info), Central And South Eastern Europe Initiative (www.ica-casee.org) and is coordinator and partner of several Erasmus Mundus Action 2 programmes (www.eurasia2.cz; www.eu-casia.org/Erasmus-Mundus, www.iamonet.de).

FILM ACADEMY OF MIROSLAV ONDŘÍČEK IN PÍSEK

**STUDY IN
PÍSEK**

About

Film Academy of Miroslav Ondříček in Písek is a private higher education, founded in 2004. It is situated in the South of Bohemia, just 100 km from Prague and is accessible by Student agency buses. Most of the teachers are film professionals; therefore the Film School focuses on hands on experience together with theoretical knowledge. The graduates are appreciated by companies in the field of media and film because of their practical skills.

Good at

The school is known for hands on experience. Students are taught by professional experts and therefore get to meet and work with real professionals. They also have a chance to film their own short projects every semester.

For international students

Film Academy of Miroslav Ondříček in Písek offers Bachelor and Master degree programmes accredited by the Ministry of Education of the Czech Republic in English, as well as it organizes a 1 or 2 semesters International Film Studies Programme – intensive course about practical and theoretical film education and training.

International cooperation

Although Film Academy of Miroslav Ondříček in Písek is a small film school, we have 9 bilateral agreements with European countries under the Erasmus Programme. FAMO in Písek welcomes around 5 Erasmus students each year. Relationship between a student and a teacher is therefore very unique and personal. FAMO in Písek is a holder of Erasmus Charter for Higher Education 2014-2020.

About

The Institute of Hospitality Management (IHM) is a tertiary level institution focusing on the fields of hospitality, gastronomy, tourism and marketing communication. The school has been operating and successfully preparing professionals for the field since 1999. Over the years the school has built up a high-quality pedagogical faculty and is very well-equipped, offering students a friendly and pleasant study environment, practical training, and a background for extra-curricular activities.

Good at

The Bachelor's and Master's programmes at the IHM provide their graduates with a competitive edge in the ever-demanding job market both in the Czech Republic and abroad. Professional subjects are immediately applicable in job positions which require concrete knowledge, while the theoretical basis that students acquire facilitates training and a broadening of competencies according to the needs of the employer.

For international students

IHM have programmes for those students who want to study in English. The full-time Bachelor Degree programme in Hospitality Management in English and full-time Master Degree programme Hospitality and Spa Management in English are accredited by the Czech Ministry of Education and accepted in all EU and other leading countries of the world. Conditions for admission are concurrent with standard conditions for other fields of study at the IHM and can be found on the IHM web pages.

International cooperation

Since 2004 there have been mutual teacher and student exchanges within the Erasmus programme. At present the IHM has 27 bilateral agreements with partner schools all over Europe and also participates in a practical training programme under Erasmus programme – in hotels in Greece and Spain. IHM currently ranks second among private universities for the number of student work or study stays abroad. IHM has received Erasmus Charter for Higher Education 2014-2020 and is a Diploma Supplement Label holder for 2013-2016. IHM is a project member in the international project WelDest funded with support from the European Commission.

**INSTITUTE OF
CHEMICAL TECHNOLOGY
PRAGUE**

FACTS AND FIGURES

Fields of study: Chemical Technology, Environmental Technology, Food and Biochemical Technology, Chemical Engineering

Founded: 1952

Kind of institution: Public

Degree programmes: Bachelor's / Master's / Doctoral

Degree programmes taught in English: 1 Bachelor / 5 Master's / 14 Doctoral

Total number of students: 3 500

About

The Institute of Chemical Technology (ICT), Prague is a public university providing education and pursuing scientific research and development in all fields of chemistry and biochemistry, chemical engineering, food chemistry and technology, water and power technologies, forensic analysis, environmental protection, materials sciences, nano- and biotechnologies and other chemistry-based fields of study.

Good at

The ICT Prague is the largest university focused on teaching of technical chemistry in Central Europe and belongs to the top universities in the Czech Republic. Its progressive branches of study and international reputation offer students access to leading technologies and is their entrance ticket to prestigious employment in the Czech Republic and abroad. The excellent general education provided by ICT Prague in both natural sciences and engineering, together with a strong orientation in informatics and computer application, forms an excellent basis for future careers not only within, but also beyond the chemical, petrochemical and food industries.

For international students

The ICT Prague offers fully accredited study programmes in English at Bachelor's, Master's and Doctoral level. Students are actively involved in scientific and research activities and have an opportunity to work with top laboratory equipment. Besides study, a very active student club, sports and social activities are available.

International cooperation

The ICT Prague foster international cooperation in the educational area within the framework of the Erasmus, Erasmus Mundus, Tempus and other programmes and also participates in numerous bilateral or multilateral scientific and research projects funded either by European Commission or by national funding bodies.

About

Institute of Technology and Business in České Budějovice (ITB) is a dynamically developing public HEI, offering practice-focused degree programmes. ITB endeavours to achieve a maximal cooperation with the regional business entities and institutions. Thanks to the unique concept of study the graduates are prepared for both an instant start of their professional career and a potential following master course.

Good at

Studying at ITB is unique for the following reasons: teaching, practice, research and development are interlinked the experts with current practical experience participate in teaching modern and effective techniques, methods, strategies and teaching forms are being introduced, e.g.: on-line teaching, electronic testing, e-learning, teaching in a form of the projects etc.

For international students

ITB offers a variety of English taught courses for exchange students. International students who speak Czech can apply for a bachelor degree study programme. Local students from the Buddy programme take care for the foreign students and organize plenty of activities for them.

International cooperation

Development of international cooperation is one of the foci of ITB. Nearly 70 bilateral agreements with universities in over 24 countries of Europe and Asia enable ITB to organize the student, teacher and staff mobility. Most of the mobility is carried out through the Erasmus programme.

JAN AMOS KOMENSKÝ UNIVERSITY PRAGUE

**STUDY IN
PRAGUE**

About

The Jan Amos Komenský University Prague (UJAK), founded in 2001, is the largest Czech private HEI. It offers 11 Bachelor's, 6 Master's and 2 doctoral fully accredited study programmes as well as an internationally accredited MBA programme. About

Jan Evangelista Purkyně University in Ústí nad Labem (UJEP) is a young, open and dynamically developing university situated in the Ústí Region, which is located in Northwest Bohemia. It offers 32 Bachelor study programmes, 23 Master study programmes and 13 Doctoral study programmes. More than 10 900 students currently study at the university on full-time or part-time basis. On average, 2 000 students graduate from the university every year.

Good at

The advantage of the university is its variety of study programmes, ranging from human, social-economic and nature sciences to technical sciences. The unique regional character of the university allows students of nearly all study programmes to enjoy the pros of combining theoretical knowledge and practice.

For international students

The university provides higher education in a region that is attractive in many respects (e. g. proximity to the capital city of Prague and neighbouring Germany, lower costs of living in comparison to other regions in the Czech Republic, beautiful surrounding landscape etc.). The International Student Club, sufficient dormitory capacities as well as wide variety of leisure-time activities offered, make UJEP a modern and attractive place to study.

International cooperation

The university participates in both EU and national programmes of development, supported by the Ministry of Education, Youth and Sports and the Ministry of Foreign Affairs. UJEP has a rich international cooperation based on 34 contracts with universities from all around the world.

JANÁČEK ACADEMY OF MUSIC AND PERFORMING ARTS

STUDY IN
BRNO

About

The Janáček Academy of Music and Performing Arts Brno (JAMU) is one of only two such academies in the Czech Republic. It is named after Leoš Janáček, one of the most distinguished figures in modern European music.

Good at

Its innovative approach in its degree programmes in drama education for the Deaf (unparalleled in Europe) and musical theatre (unique in the Czech Republic); its promotion of clown, scenic and film creation; its pioneering work in the use of drama in teaching; its path-breaking electroacoustic music and multimedia programmes; its exciting student production at the Theatre Studio Marta and the new Music-Drama Lab, Theatre on Orlí.

About

Karel Engliš College is a private college, which has been engaged in providing academic education in Bachelor's programmes since its foundation in 1999. The College provides education in Brno. During its existence, more than 1,000 students have successfully completed their studies. In 2011, Karel Engliš College, in cooperation with other Czech and Slovak colleges and universities, organized the 6th International Scientific Conference titled "Economics and Law – Synergy or Antagonism?". The aim of this conference was to reflect and discuss current trends in theory and practice in the wider scope of economic and juridical environment in the Czech Republic and in the EU. The conference also marked the 10th anniversary of the inception of teaching at the College. Karel Engliš College regularly organizes workshops conducted in cooperation with its students. In these workshops, many distinguished figures of Czech entrepreneurial, banking and political stages have delivered their lectures. Karel Engliš College regularly earmarks financial resources for the activities of its internal grant agency. College students cooperate on the grants and thus gain experience with application of their theoretical knowledge in entrepreneurial environment.

About

Literary Academy (LA) offers courses in creative writing, publishing and editing and media communications. Unique study programmes enable students to develop their skills in the areas of literary studies, creative writing and media. It is the first institute of higher education of its kind to be established in the Czech Republic.

Good at

LA graduates are well represented across all fields of media in numerous creative and editing capacities (authors, writers for screen and stage, editors, journalists, copywriters) and in public relations and management (press secretaries, spokesmen, producers). LA staff consists of Czech leading authors, media experts and academics. LA students have the opportunity to publish their works since the best BA and MA theses of our graduates are published as part of our "First Work Edition". Another advantage is that the teaching facilities are located in the centre of Prague.

For international students

Literary Academy offers 3-year BA and 2-year MA study programmes of Creative Writing (with MA level study tracks of Creative Writing and Editing) and Media (with MA level study tracks of Audiovisual Production and New Media). All courses are full-time; Creative Writing (BA) can also be studied on a part-time basis. The Czech language is required on the level C1 for Creative Writing students and B2 for Media students.

International cooperation

LA cooperates with European Community Action Scheme for the Mobility of University Students (Erasmus) and European Association of Creative Writing Programmes (EACWP).

About

Masaryk University (MU), located in Brno, was established in 1919, and with its nine faculties and almost 41 000 students is currently the second largest Czech university. The major aim of MU is to conduct education and research at the highest international level of excellence.

Good at

In recent years it has consistently attracted record number of applicants for studies and has come to be recognized as one of the major Central European universities.

One of the top priorities of Masaryk University is research. Its scientist and scholars have gained wide international recognition in the areas of the natural sciences, medicine and information technologies as well as in the humanities and social sciences, law and economics.

MU, however, also lays strong emphasis on the quality of teaching and student services. The fact that the university has been awarded two European quality labels – the ECTS label and the DS label - in the past years, provides evidence that MU meets the standards that are required of the best European higher education institutions.

For international students

MU and its International Student Club (ISC) provide a comfortable environment for international students to study and live in. The ISC provides plenty of opportunities for students' social activities, while the university offers numerous study and leisure facilities, such as several sports grounds and premises, libraries, computer centres (some open 24/7), etc.

International cooperation

Masaryk University places a strong accent on international cooperation: Throughout the recent decades it has established solid and stable links with more than 600 prestigious foreign universities and research institutions. The university is also a member of many important international associations and networks (e.g. Utrecht Network, the Compostela Group of Universities, ISEP).

About

Mendel University in Brno (MENDELU) consists of 5 faculties and 1 university institute. MENDELU students can choose from 41 fields of study in Bachelor's programmes, 41 fields of study in Master's programmes in the regular form of study, and from 18 study fields in Bachelor's programmes and 14 fields of study in Master's programmes in the combined form of study. Mendel University in Brno also provides continual access to up-to-date knowledge, acquisition of new skills and enhancement of qualification both for its graduates and for a broad range of other interested persons through its lifelong education, as well as activities for senior members of the community through its University of the Third Age (U3A).

Good at

In 2013 the University opened a new biotechnology building known as Mendel Pavilion to provide superior facilities to students for their research in many well-equipped labs and ultramodern teaching premises for practical as well as theoretical lessons. MENDELU operates the University Farm and the Forest Training Centre in order to train students, conduct research and verify theoretical knowledge in practice. MENDELU adopted the European Credit Transfer System (ECTS). Each faculty boasts excellent research results (e.g. MENDELU scientists made a significant discovery in the treatment of cancer). The Faculty of Business and Economics ranked among the best faculties in the Czech Republic in years 2010 to 2014.

For international students

Every international student is provided with accommodation in MENDELU halls of residence. New incoming students participate in the Orientation Week at the beginning of the semester. Social events, entertainment and supporting activities are organized by the International Student Club throughout the academic year. The University offers over 250 courses in English in different fields of study. Application procedure for international exchange students consists of two main steps – first, the incoming student must be nominated by the international coordinator and second, he/she shall send us the application documents.

International cooperation

Erasmus+ (over 190 universities in Europe), Erasmus Mundus, Jean Monnet, CEEPUS, DAAD, Aktion, Visegrad Fund and more than 60 bilateral agreements (Oregon State University, Oklahoma State University, Universidad Autonoma del Estado de México, Kangwon National University in South Korea, Kasetsart University in Thailand, Ural State Forest Engineering University in Russia, and others).

About

Metropolitan University Prague (MUP) offers accredited study programmes taught in English in these areas: International Relations and European Studies, International Business and Anglophone Studies.

Good at

Research Centres: MUP provides a platform for research centres that hold numerous conferences and specialised seminars each year.
School without Boundaries: The university offers students with physical disabilities the opportunity to achieve university education within the programme "School without Barriers" free of charge.
MUP Times: MUP Times is the official online student magazine.

For international students

Czech Language: MUP implements one-year preparatory course and intensive Czech language course for exchange students.
Sport Centre: MUP Sports Centre offers students a wide variety of leisure-time activities, including semester-long courses and skiing/cycling trips.
Buddy Team: MUP students help foreign exchange students after their arrival and organise for them many cultural events.

International cooperation

Erasmus and non-EU cooperation: MUP established a network of more than 140 partner universities from Europe, Asia, North Africa and the Americas (50 countries at all). MUP focuses primarily on the development of academic and student mobility (study stays, work placements).
Double Degree Programme with four universities from Germany, Italy, Slovakia and The United Kingdom.
Leonardo da Vinci: MUP graduates have a chance to gain professional experience in international companies by participating in internships.

About

Moravian University College Olomouc (MUCO) is a small, dynamic and single-minded private university college established by powerful business companies and orientated on economics, management and applied ICT. Certificated courses of business innovation, energy and facility management are realized in cooperation with significant international companies (Platinn, Schneider Electric, Microsoft, IFMA).

Good at

MUCO is regionally anchored and seeks a pronounced international orientation. The overall objective of MUCO is to combine academic excellence with economic and social relevance and thus to create added value. MUCO is also a holder of the Diploma Supplement Label and the Certificate of Quality Management System. In all the activities of MUCO the emphasis is put on the synergy of business and academic world, market sustainability and competitiveness of graduates in the labour market, innovative processes and practical application of theoretical knowledge.

For international students

MUCO welcomes international students, academic staff and foreign and Czech experts from practice for lectures.

International cooperation

The participation in the Erasmus programme, in the R&D programmes (both European and transatlantic) and in the international Innovation and Technology Transfer programmes ensures a fruitful cooperation with universities and enterprises on the international level.

About

NEWTON College is a private institution of higher education focused on modern education for management, psychology and economics. Studies combine theoretical lectures, practical workshops (seminars), managerial training and internship programmes in renowned companies. NEWTON College was the best rated private college in the Czech Republic in the years 2011/12 and 2012/13.

Good at

Studies are closely interconnected with projects from a practical business environment. Do not expect any mindless cramming of facts and definitions at NEWTON College. The lectures and seminars are taught in small groups which strengthens the ties between students and lecturers. The lecturers are respected professionals from companies or governmental organizations. One such example is the Head of the Department of Economics and lecturer for several courses, Mr. Vladimír Tomšík, who is also the Vice-president of the Czech National Bank.

For international students

Currently, instruction at NEWTON College is offered only in Czech, with the exception of special lessons prepared by Newton College for Erasmus students. These are taught in English. NEWTON College also offers a course of in Czech for foreign students.

International cooperation

NEWTON College has signed partnership agreements with 20 foreign colleges and universities within the Erasmus programme. Students have an opportunity to study abroad for maximum one calendar year. The same applies for foreign students of partnership universities who decide to study at NEWTON College.

About

Palacký University was founded in 1573 as the second university in the Czech Lands. Today it has more than 23 000 students at 8 faculties, covering fields from health sciences and medicine through modern and classical languages, philosophy, teacher training, sciences, law, and theology. The student population includes more than 1 500 international students from all over the world plus 230 exchange students.

Good at

Palacký University is a modern institution providing high quality teaching combined with research and supported by state of the art facilities – libraries, computer facilities, laboratories, etc. Housing is guaranteed for all international students in modern, fully equipped dormitories, dining halls are located in six different university locations. Once the medieval capital of Moravia, Olomouc combines history and contemporary vitality. The town is big enough to provide all the convenience of city life including theatres, galleries and clubs, as well as sports facilities. Yet it is small enough to allow you to actually meet people. With less than a three-hour drive to Prague, Vienna, Krakow or Bratislava, Olomouc lies in the very heart of Europe.

For international students

The main language of instruction is Czech. The University also offers programmes and courses in other languages. The most popular among international students are the programmes of the Faculty of Medicine: General Medicine (M.D.) and Dentistry (M.D.). Doctoral programmes for foreigners are also available. The Philosophical Faculty has the richest diversity of English study programmes: Euroculture (Erasmus Mundus MA), Political Science and European Studies (MA, Ph.D.), Central European Studies, Chinese Philology, Jewish and Israeli studies (BA). The faculty has programmes in Dutch and German and provides courses of Czech for Foreigners. Since the main objective of the Faculty of Education is to educate future teachers and other educational specialists for all school types and levels (from pre-primary – to upper secondary) it offers a wide range of Bachelor, Master and Doctoral study programmes, some of them unique in the context of the Czech university education: Special Needs Counselling (MA), Education (Ph.D.), Special Education (Ph.D.) and Theory and Education (Ph.D.). The Faculty of Science offers International Development Studies (MA). The study programme focuses on complex geographical studies as well as on environmental issues. All doctoral study programmes of the Faculty of Science are provided in English except Environmental Geology and Regional Geography. The Faculty of Physical Culture offers a Doctoral study programme in Kinanthropology. Newly, the Faculty of Law offers a Doctoral study programme: European and International Law.

International cooperation

The University participates in many European programmes of cooperation in education and research. It has more than 300 Erasmus partner institutions in 28 European countries and 80 bilateral cooperation agreements with universities around the world.

About

The Police Academy is a leading state college and research centre of a university type offering the Bachelor's (Bc.), Master's (Mgr.) and Doctoral (Ph.D.) study programmes in full-time or combined forms. In 2008 the Academy was divided into the Faculty of Security and Law and the Faculty of Security Management. Both faculties offer accredited study programmes and specializations.

Good at

The Police Academy employs a team of lecturers and specialists with extensive experience. Teaching, science and research activities are organized through specialized departments, especially with focus on legal, security and public administration.

For international students

All international students can be accommodated in double rooms of our campus. It takes two minutes on foot to come to the main Academy building. The students have services of school canteen to their disposal. The Academy offers a large scientific library including a student library. All students have access to Internet. The campus offers many sport activities.

International cooperation

The international cooperation is implemented in several levels, i.e. through direct bilateral cooperation with foreign police educational institutions, through participation in international educational projects and engaging in the Erasmus programme and from 2014 the Erasmus+ programme under which the mobility of students, teachers and school staff are carried out.

About

Prague College of Psychosocial Studies (PVSPS) is a small private college that provides Bachelor and Master degree programmes in the field of Social Work, Social Politics and Psychology. The PVSPS has a special separate part the Psychotherapeutic faculty that organizes a three-year weekend theoretical study of psychotherapy in a form of lifelong learning. It is designed for further education of people from helping professions, for professionals working with people and for people interested in this field. PVSPS organizes seminars and workshops on various themes in the field of psychotherapy for professionals and the general public. PVSPS organizes trainings in the group and community psychotherapy (psychodynamic and daseinsanalytic orientation).

Good at

We have almost individual way of teaching. Our special features include:

- Community-based teaching methods.
- A three or a five year self-experience and development training programme as a basis for psychosocial counselling and psychotherapy.
- A course "Soul-care" encompassing themes of caring for one's soma, psyche and spirit as well as for one's relationships, family, community and culture.
- A special focus on communication and its various forms and uses.

Very intensive cooperation with the closely related psychotherapeutic and psychosomatic clinic Eset.

For international students

For incoming foreign students we had prepared the list of courses in English which are based on our advantages. The 3-months course involves 8 lectures. During the 5-months programme the student takes the 3-months course and after it he/she works on an individual project. The type of teaching methods depends on number of foreign students. We also offer individual consultations with our teachers. The non-Erasmus students have to pay a tuition fee.

International cooperation

PVSPS cooperate with European Universities: Sigmund Freud University in Vienna, Hogeshool Rotterdam, University of Jyväskylä, Comenius University in Bratislava, Catholic University of Ružomberok, University of Valencia, Universitat Autònoma de Barcelona, Université Bordeaux Segalen and Université Paris8. Every year we are looking for new partners. We consider student and teacher mobility as an important part of higher education. We would like to improve our teaching methods and approaches to social work and psychology and increase the cooperation between our college and progressive and innovative institutions abroad. We are especially interested in the new approaches in community learning and community work. We also find important to invite experts from the field of social work, psychology and psychotherapy to share experiences.

About

The Private College of Economic Studies Znojmo is a small, non-university type of college. It provides Bachelor's degree qualification (graduate degree Bc.) in the full-attendance and combined form of study. The field of study is Economics and Management with the following courses of study: Accountancy and Business Financing, Marketing and Management, The Economics of Public and Social Administration.

Good at

- High-quality education in a nice study environment
- Individual approach and friendly atmosphere
- We guarantee accommodation at the college dormitory for an acceptable price
- Respectable professional lectures
- Cooperation with companies in the region (internship possibilities)
- Practice-oriented teaching

For international students

STUDY: The main language of study is Czech which is an advantage for students from Slavic countries. The Private College also offers programmes and courses in English. The most popular among international students are courses of Marketing and Management.

ACCOMMODATION: Modern accommodation is provided at dorms near the college and in the centre of the town, with comfortable rooms with connection to the internet.

REGION: The town of Znojmo is one of the oldest Czech towns, the second largest town of South Moravia. Thanks to its geographical location near the National Park Podyjí and suitable climate it is a paradise of wineries, orchards and cyclists. The town is situated only 15 km from the border to Austria.

International cooperation

Our college supports student mobility, it is ready to cooperate with universities from all over the world and is open to students who want to study at a small but very friendly college with family atmosphere. The college cooperates with 20 universities and institutions abroad. Lectures by academic staff from abroad are an important part of the studies here. Our college organizes international conferences, takes part in international projects and supports research of students and academic staff as well.

About

The Private University College of Economic Studies Ltd. (PUCES) is a small independent tertiary education establishment offering both undergraduate and follow-up Master's programmes (in Economics and Management fields of study), lifelong learning schemes, carrying out associated scholarly and research activities. PUCES educates qualified managerial staff and accountants in both full-time and part-time forms of study. Work placements in collaborating organizations, supporting Bachelor's and Master's projects, are an integral part of the career-oriented curriculum. The accredited study programmes are regularly enhanced according to the needs of the job market. Despite its short history, PUCES has established a good reputation, the graduates pursuing their careers both in public and private sectors, the college ranking among top schools in graduates' employability.

Good at

PUCES takes care of the academic environment and culture. The partnership between students and academic staff is based upon fair relationships and informal communication. PUCES resource and counselling centres are available. A wide selection of online e-learning aids is accessible from the college e-portal, increasing students' comfort.

For international students

In spite of the tuition language being Czech, PUCES accepts foreign students under the same conditions as Czech nationals in compliance with international agreements, provided they are proficient in the language. (Two foreign languages are taught as compulsory core subjects.) ECTS comparable system is applied and the graduates receive an English-Czech diploma supplement.

International Cooperation

PUCES is the holder of the Erasmus Charter for Higher Education. It facilitates students' mobility, the EU-refunded exchange visits being arranged within the LLP/Erasmus+ programme. Mobility options have been enlarged considerably in recent years. PUCES has extended the network of cooperating higher education institutions, having concluded bilateral agreements with 20 partner schools in 11 European countries.

About

ŠKODA AUTO University was founded in 2000 and to this date is the first and the only company-owned university in the Czech Republic. The founder of the university is ŠKODA AUTO, a car producer which has been manufacturing passenger cars for more than a century and is one of the Europe's largest automotive brands within the Volkswagen Group. Our educational concept is unique and highly specific. The Bachelor's degree programme includes one semester of compulsory internship, usually in ŠKODA AUTO or other VW Group companies around the world. The follow-up Master's degree programme provides students with a high level of interaction between lecturers and students during seminars and exercises. Graduates of ŠKODA AUTO University climb to global managerial positions not only in the automotive industry.

Good at

ŠKODA AUTO University offers:

- high-quality team of lecturers,
- direct involvement of ŠKODA AUTO specialists in the education process,
- individual approach to students,
- opportunity to study abroad,
- opportunity to pursue an internship within the ŠKODA AUTO Company and Volkswagen Group.

For international students

At present, over 1 200 students from the Czech Republic and other 20 countries have been studying for a degree at ŠKODA AUTO University.

International cooperation

ŠKODA AUTO University holds the Extended Erasmus Charter and its network of international partners span over 30 universities in the European Union, Turkey, Norway, Russia, United States and China. Since 2010, ŠKODA AUTO University has been offering a double-degree programme.

About

The Technical University of Liberec (TUL) is a dynamic university of medium size that joins forms of technical and university education. Within six faculties and the university institute, it offers a large spectrum of acquisitions in technical, scientific, humanity as well as artistic and interdisciplinary study branches. We have well equipped laboratories and top quality teams of research workers for humanities.

Good at

The significance of TUL outreaches the region of Liberec and the Czech Republic as well. TUL reaches excellent results in the fields of science and research. As one of many examples, the world-wide unique discovery, the industrial manufacturing technology of nano-textiles. The Technical University of Liberec can also be proud of a good social, cultural and sports background. The University Sports Complex is available, in addition to the excellent facilities in Liberec, and its surroundings, for summer and winter sports. TUL can satisfy all demands of accommodation in modern halls of residence.

For international students

It is possible to study most of the Bachelor's, Master's, Joint Master's or Doctoral degree programmes either as a full-time or a distance study form. Many of them are also accredited for being taught in English. Applicants apply for chosen study programme and study branch by handing in properly filled application form up to deadline. The application is sent electronically – see <http://stag.tul.cz>.

International cooperation

A significant part of international activities is aimed on the mediation and administration of study visits of academic staff and students of TUL at foreign higher education institutions and to provide studies at TUL for students of partner universities. TUL offers students the opportunity to spend part of their studies at universities such as the St. Gallen, Dresden or Huddersfield.

About

Tomas Bata University in Zlín (TBU) is a progressive and modern university following the current trends of higher education in Europe and in the world. TBU is comprised of six faculties offering to students the possibility to study technology, economics, management, natural sciences, informatics, humanities, arts, logistics and health care. Students at all levels of education are provided with modern facilities in order to support their personal development and skills.

Good at

In 2012, TBU was awarded a prestigious certificate ECTS Label by the European Commission. The ECTS Label is the most significant European certificate and is recognized as a proof of high quality of the relevant higher education institution. TBU's aim is to educate graduates who have acquired the essential skills they need to develop successful careers in the international environment. The University also puts strong emphasis on R&D activities carried out in cooperation with universities and R&D institutions from all over the world.

For international students

Every year hundreds of international students study at TBU in degree programmes or in exchange programmes. Students who are admitted to study in a degree programme at TBU can also apply for various exchange programmes and spend one or two semesters at any of our partner universities abroad. Our student body is multicultural and comes from more than 44 countries. In addition, a student organization entitled "Buddy System Zlín" takes care of international students, helps them with everyday activities and makes their days at TBU easier and more pleasant.

International cooperation

TBU cooperates with more than 350 universities all over the world. TBU is also involved in many different international projects including TEMPUS, Erasmus Mundus, Government Scholarships, etc.

UNIVERSITY COLLEGE OF INTERNATIONAL AND PUBLIC RELATIONS PRAGUE

STUDY IN
PRAGUE

About

The University College of International and Public Relations Prague is a prestigious private university, which, through its original study programmes, focuses especially on the European Union, diplomacy, international relations, public administration, political and other segments of civic society and communication-based relations in social system, including Public Relations.

Good at

The teaching at our university is in the hands of a professional team of highly-qualified lecturers, many of whom have worked at high posts in the government or as diplomats, historians, experts on politics, communicators or members of the media.

For international students

The university is a home to more than one thousand students of various nationalities. Being one of a few universities in Central Europe offering courses on Diplomacy and International Relations and Public Relations it attracts bright young students offering them friendly, welcoming and creative environment where every student receives personal treatment.

International cooperation

International cooperation at all levels is one of the school's high priority activities. International relations are the subject of concentrated attention and constant effort.

About

The University of Business in Prague has been a private higher education institution since 2000. Over the first decade of its existence it achieved a significant position among the higher education institutions in the Czech Republic.

Good at

The University of Business in Prague prepares highly qualified specialists for work in attractive service industries, offers quality education in accredited study programmes in order to enable them to start their career in middle or top managements of tourism, aviation, and service businesses and further develops the existing study programmes and fields of study, as well as expands the existing portfolio in accordance with the Long-Term Development Plan of the University. The graduates succeed in the labour market and hold significant positions not only in tourism but in the whole spectrum of our economy.

Student life

The University has well-furnished air conditioned classrooms in one of the significant Art Nouveau buildings. It has a favourable location in Prague Centre, the place offers attractive and quiet environment and is perfectly accessible by public transport. Study room and Library with PCs and free Internet access, Student Information Centre and Students Club and restaurant is available to students.

International cooperation

The University of Business in Prague is affiliated member of the UNWTO, member of UNWTO Knowledge Network, ATLAS, NECSTouR, and other distinguished world and European organizations and associations, active in the fields of tourism, air transport and education and is a partner of number of universities world-wide. The Erasmus programme is an important tool of the international cooperation of the University of Business in Prague in the field of student's, teacher's, and staff mobility, as well as student placement.

About

The University of Defence in Brno is the crucial institution in the field of security and defence. Being a state higher education institution, it is responsible for higher education of military professionals enrolled in the Army of the Czech Republic and also of civilian experts who are to work for the national security system, defence and security industry or public administration. The University of Defence offers accredited studies in the Bachelor's, Master's and doctoral degree programmes. Priority in education is given to the five- and six-year-long continuous Master's degree programmes focused on Czech military commanding and supporting staff. The pilot fields of study are the following: Armed Forces Management and Engagement, Military Technology, Military General Medicine, Military Dentistry and Military Pharmacy. The fields of science fostered at the University of Defence primarily relate to defence applied research, to forces and population protection, or the economics or medicine fields applied to military.

Good at

University of Defence works on the exclusive fields of security and defence education and research in the Czech Republic, such as weapons and ammunition, fighting vehicles, radars, population protection, fire support control, field surgery, radiobiology or toxicology.

For international students

The University is open to accept international students, both for all type of degree studies and within the Erasmus / lifelong learning programme.

International cooperation

University lays great emphasis on international cooperation with prestigious universities and research institutions in particular of NATO countries.

About

The University of Economics and Management offers higher education study programmes promoting the acquisition of inter-field knowledge and skills enabling its graduates to work within the environment of companies and organizations in the globalized and knowledge-based economy.

Good at

Students are encouraged to develop their analytical thinking skills and to take a critical and creative approach used in an interdisciplinary environment, the ultimate goal being to train graduates with a global and multicultural insight, who are capable of initiating, implementing, and driving changes in personal, professional, and social life. On the basis of a careful analysis, they are able to adopt and implement adequate measures, and to manage, assess, and supervise the changes implemented.

For international students

The conception of study plans and teaching methods is developed in line with the changing social needs and requirements reflecting the individual attitudes and needs of students, who are led to be able to cope with management and analytical tasks. Students are trained to be able to assess the existing situation (input and output) of the examined area using both external and internal information sources.

International cooperation

Students can spend a part of their studies at a university or a college abroad. There are altogether more than 40 schools available in Europe, the intensity of the mutual cooperation being different from one case to another. In case the conditions given are fulfilled, the subjects completed abroad are fully recognized by VSEM.

About

The University of Economics, Prague (Vysoká škola ekonomická v Praze, VSE) is a public university founded in 1953. It is a leading Czech university in fields of management and economics. About 20 thousand students enrol at VSE; it employs about 700 academics and 600 administration staff. Graduates occupy positions in the sectors of banking and finance, audit and taxes, IT, marketing, business and trade, public administration, etc.

Good at

Internationalization: VSE has more than 200 partner universities and business schools worldwide; it has repeatedly succeeded in the Eduniversal ranking and the Financial Times European Business Schools ranking.

Career Opportunities: VSE has 18 corporate partners; graduates receive best job opportunities and are highly demanded on labour market.

For international students

VSE offers 4 international Bachelor's programmes (3 in English, 1 in Russian), 6 Master's programmes in English, an MBA in French, and 9 Doctoral programmes in English. International students are provided with services of the International Studies Centre and a Buddy System, library, dormitory accommodation, free Wi-Fi Internet access, or various sport facilities. They can participate in activities of student organizations, e.g. AIESEC, AEGEE, CEMS Club, student chorale and chamber orchestra, Film club, Model UN club, etc.

International cooperation

VSE offers dozens of courses taught in English (and French, German or Russian) to exchange students, as well as free movers (CESP programme). It is member of international networks, e.g. CEMS, PIM, EIASM, EDAMBA, EAIE, or EFMD. It has been accredited the ECTS and the DS label by the European Union.

About

The University of Finance and Administration (VSFS) was founded in 1999. Currently, it has around 5 000 students and provides all levels of higher education. The University offers a great value for investment into your own future. Studying the American way in a beautiful European city is a smart decision to make.

Good at

VSFS is the first private economic university and a national organizer of The Global Management Challenge in the Czech Republic and Slovakia. VSFS organizes significant scientific conferences. These conferences hosted top researchers like Sam Peltzman from The University of Chicago.

For international students

VSFS is open to international students who would like to undertake full-time studies in accredited degree programmes. Students can choose from a broad offer of degree programmes and combinations taught in Czech or English language, from economic studies to social studies. For student life there is the International Student Club, which organizes events for home and foreign students. Touristic Club provides a various activities for students and lectures too.

International cooperation

VSFS takes an active part in various forms of international cooperation. In the sphere of education it's represented mainly by the student's and lecturer's mobility in the framework of the Erasmus programme. VSFS is a national organizer of The GMC in the Czech Republic and Slovakia. With more than 500 000 university students and company managers participating throughout the world, it's by far the largest strategy and management competition in the world.

About

The University of Hradec Králové is a university with dynamic and youthful environment. The University provides high-quality tertiary education within a large scope of study fields that comprise Economics, Social Sciences, Humanities, Educational Studies, Natural Sciences and Information Technology Studies.

Good at

Throughout the whole period of study the main emphasis is given on the students' ability to apply their knowledge in practice in their future careers. The emphasis is given on individual approach to each student. This attitude is possible primarily due to a limited number of students in the classes. The University prepares qualified specialists that succeed on the local labour market as well as abroad. Statistics show that the number of unemployed graduates of the University is marginal. The University is a member of European University Association (EUA) and holds the Diploma Supplement Label, a certificate issued by the European Commission confirming that the University meets all standards of European tertiary education institutions.

For international students

The University provides accommodation in student halls of residence and students can benefit from well-established buddy system. The University campus is situated conveniently in the town centre within walking distance of the other university buildings, the Educational and Scientific Library, and the old town with many cosy restaurants and bars. In addition to classrooms and lecture halls equipped with latest technology, the campus includes the University Library and Gaudeamus Publishing House, a textbook shop and an art gallery.

International cooperation

The University realizes the importance of international contacts and agreements and is involved in numerous international programmes, e.g. programmes funded by the European Union such as the Erasmus+ Programme, the programme CEEPUS and DAAD.

About

Think exclusive: University of New York in Prague (UNYP) in cooperation with State University of New York is a highly prestigious school. Its added value lies in the fact that our professors can transfer their theoretical skills to real situations in the work environment, as part of both Bachelor and Master studies. As the only international university, UNYP is the best destination for study abroad in Prague, offering two versions of the Bachelor programme diploma (Czech and American).

Good at

Think advantages: American educational model, Exclusive high-quality education, Double-degree programmes (diploma from a prestigious US university also a CZ Bc. title), Possibility to study at partner universities abroad, Flexible timetable, Unique technological background, Multicultural environment, Ideal starting point for future career.

For international students

Think quality: Accredited by Ministry of Education, Youth and Sports of the Czech Republic, BAC, CAMBAS. Member of AACSB, Association of MBAs, IACBE, CEEMAN. Take the opportunity offered by UNYP, gather contacts for your future career and join the elite group of students.

International cooperation

Think the world: The UNYP cooperates closely with a number of multinational companies and offers an exclusive opportunity to apply their new knowledge in practice. As part of their studies, students can apply for study stays abroad, or get professional placements, which are in some cases obligatory. Teaching takes place in English and the programmes are open to foreign students. Currently, more than 700 students from more than 60 countries study at UNYP. Lecturers from the US, the EU and the CZ with both academic and professional backgrounds teach at UNYP.

About

The University of Ostrava was founded on 28 September 1991. Its origins can be traced back to 1953. Today's University of Ostrava represents a natural continuation of this tradition. Since its foundation, the University has provided a much-needed focus for the study and research of humanities and social sciences, helping to redress a historic imbalance in a region traditionally dominated by heavy industry and technical studies. The University offers a wide spectrum of degrees at Bachelor's, Master's and Doctoral levels, in addition to lifelong learning programmes. It is also involved in many European Union-funded projects enabling the general public to improve and update their skills and knowledge.

Good at

The University of Ostrava was awarded the Diploma Supplement Label Certificate for 2013 – 2016. The University of Ostrava was awarded ECTS (European Credit Transfer System) Label in 2012.

For international students

The University of Ostrava offers outstanding conditions for studying. Students can use the university library, laboratories, computer rooms, halls of residence as well as sports facilities.

International cooperation

The University of Ostrava cooperates with a wide range of institutions and universities in Ostrava, the region, the Czech Republic and abroad – including 421 bilateral agreements (Erasmus) and 68 prestigious international agreements on cooperation with universities in Europe, Asia, Africa and America. The University of Ostrava is interested in the programmes and projects: Erasmus, Grundtvig, Aktion, CEEPUS, Visegrad Funds, Consortium PROGRES 3.

About

The University of Pardubice (UPa) is a modern and dynamic public higher education institution in the heart of Europe, which broadens the universal scale of scientific disciplines – in natural, technical, economic, social and health sciences, and arts. It offers Bachelor's, Master's and Doctoral degree study programmes with almost 130 study specializations. UPa has 7 faculties with over 10,000 students, and is also renowned for its scientific and research activities which contribute to its excellent national and international reputation.

Good at

- quality and unique educational programmes
- supporting talented and outstanding students
- involving students in research activities and projects
- enabling professional growth of individuals through advancing knowledge, skills and competencies from theory based education to practically oriented fields

For international students

Students coming from more than 50 countries appreciate: international and lively student community – good transport accessibility – study comfort – reasonable living costs in the city of 100,000 inhabitants in the East Bohemian Region. The modern facilities of the campus create ideal conditions for the all-around development of young people. Pleasant surroundings and many sports and cultural life opportunities, in combination with quality and demanding study programmes, are comparable to those of leading European universities.

International cooperation

International cooperation is maintained with over 300 universities and research institutions in 40 countries. UPa participates in several significant international and esp. European programmes (Erasmus+, Horizon 2020 etc.), many scientific projects, organizes prestigious international conferences. UPa is an active part of the European and world higher education and research area.

About

The University of Southern Bohemia in České Budějovice has been the centre of education, research and science in the southern part of the Czech Republic for more than twenty years. The school provides a wide range of study fields including natural science, economy, health and social work, education, and humanities. Students have different opportunities to study in double and joint degree programmes in cooperation with Universities such as Johannes Kepler University in Austria. Profound scientific research and art projects prepare students for specialization in the demanding 21st century.

Good at

The University of South Bohemia puts emphasis on academic international exchange and cooperation among its partners in 50 countries around the world. A close cooperation between the Faculty of Science and the Academy of Science makes it one of the leading research centres in the Czech Republic in biology. Researchers and students take part in fieldwork research as far as Papua New Guinea, Africa, or the Spitsbergen. Unique study and research programmes are offered at the Faculty of Fishery and Aquaculture.

For international students

Students enjoy the international atmosphere with more than 400 international students every year. International students get support from the International Students Club as well as the International offices at each faculty and they are offered one on one consultations with professors. Dormitories and the Student Cafeteria are available at affordable prices. Students can enjoy the central location near the Austrian and German borders and the idyllic sights close to mountains and historic sites.

International cooperation

The University of South Bohemia is highly active in the European exchange programme - ERASMUS, sending and hosting hundreds of students and academic staff each year. An information point for international researchers in the EURAXESS network has been set up at the University. Well established international summer schools take place at the campus. Freemovers are supported and the University is a member of the Eastern European academic exchange network CEEPUS.

About

The University of Veterinary and Pharmaceutical Sciences Brno consists of the three faculties - Faculty of Veterinary Medicine, Faculty of Veterinary Hygiene and Ecology, and Faculty of Pharmacy.

Good at

The Faculty of Veterinary Medicine provides university education, research and specialized activities focused mainly on clinical veterinary medicine. At the Faculty of Veterinary Medicine, education takes place within the framework of the Master's degree programme of Veterinary Medicine. Faculty of Veterinary hygiene and ecology provides university education in several programmes. Bachelor studies are carried out within the framework of the Bachelor study programme in the field of Food safety and quality. The follow-up Master studies are carried out within the framework of the follow-up study programme in the field of Food safety and quality. Master studies are carried out within the framework of the Master study programme in the field of Veterinary hygiene and ecology. The Faculty of Pharmacy provides university education, research and specialized activities aimed mainly at human and animal pharmacy. Master's studies are realized within the framework of the Master's degree programme in the field of Pharmacy.

For international students

Education at the university is organized on the principle of a credit system (ECTS - European Credit Transfer System).

International cooperation

The university students and teachers take part in short-term and long-term exchange programmes at universities in Europe and also in the United States of America.

About

The University of West Bohemia (UWB) was founded in the year 1991. At present, the University has eight faculties with more than 60 departments and 3 institutes of higher education. Nearly 16 000 students can choose from a wide range of Bachelor's, Master's and Doctoral study programmes taught in Czech and English language. UWB has a significant position in the field of high education either among the universities in the Czech Republic or in the European space.

Good at

Over the period of its existence, UWB has won a reputation as a renowned centre of higher education learning and research activities. Important milestones in the UWB development include a considerable increase in the number of research projects and the establishment of international contacts including UWB's participation in numerous educational and research projects of the European Union (LLP, EEA). The University received ECTS Label in 2012.

For international students

Graduates of UWB can find career opportunities at all levels of management of private companies and state institutions, namely in the following sectors: production, commerce, non-profit organizations and infrastructure, research institutions, design and construction companies, public administration and institutions of regional administration, services and consultancy, and educational and cultural institutions.

International cooperation

UWB has a number of bilateral cooperation with universities in the EU within the Erasmus programme but cooperates also with international partners in e.g. Asia, Canada and the USA. The University accepts international students as freemovers for short study stays. UWB also supports and cooperates with various local international student organizations based in Pilsen, such as AIESEC, AEGEE, ELSA, IAESTE and ESN.

About

VŠB – Technical University of Ostrava (VŠB-TUO) is a public higher education institution which provides tertiary education in technical and economic sciences. The VŠB-TUO prepares graduates for the future in a rapidly changing world. It's commitment is to implement education programmes across different fields, using the research and development potential of the University.

Good at

VŠB-TUO itself carries out or participates in many important projects in research and development. VŠB-TUO cooperates with many domestic and foreign universities and the private sector. VŠB-TUO excels in information technology development, in areas of mining and geology development, metallurgy, energetics, engineering and constructions.

For international students

University offers a wide range of study programmes and courses in Bachelor's, Master's and Doctoral level to foreign students, as well as exchange programmes. VŠB-TUO is a unique place to study because of the dynamic development of the IT sector plus the region itself offers a long industrial history with its specific technical monuments. The credit system of VŠB-TUO is compatible with the European Credit Transfer System (ECTS) enabling the mobility of students within the terms of European educational programmes. There are many students from all over the world.

International cooperation

VŠB-TUO has cooperative agreements with universities and research oriented institutions around the world. These agreements provide the framework for cooperation in the areas of student and staff mobility, as well as collaboration in matters of research and development, publication, and scientific meetings and symposia.
