#### **Participation of the evaluated unit's academic staff on the editorial boards of international scientific journals**

***prof. RNDr. Jiří Patočka, DrSc. - United Journal of Biomedical Engineering and Sciences, United Prime Publications, Las Vegas, Nevada, USA - member of the editorial board***

United Journal of Biomedical Engineering and Sciences is a discipline that advances knowledge in engineering, biology and medicine, and improves human health through cross-disciplinary activities that integrate the engineering sciences with the biomedical sciences and clinical practice. They advance human health, engineer better medicines, create the tools of innovation and scientific discovery, and harness the power of biological processes to aid our planet. United Journal of Biomedical Engineering is a peer-reviewed, open access journal devoted to provide a platform for scientists, researchers and clinicians working in different areas of Biomedical Engineering and Sciences. The journal publishes original and research articles, case reports, review articles, manuscripts, clinical images, letter to the editors, short commentaries, editorials etc.

***doc. RNDr. Miroslav Šíp, DrSc. - World Journal of Methodology, Baishideng Publishing Group Inc., Pleasanton, USA - member of the editorial board***

The World Journal of Methodology (WJM) is a high-quality, peer reviewed, open-access journal. The primary task of WJM is to publish high-quality original articles, reviews, editorials, and case reports in the field of methodology. In order to promote productive academic communication, the peer review process for the WJM is transparent; to this end, all published manuscripts are accompanied by the anonymized reviewers' comments as well as the authors' responses. The primary aims of the WJM are to improve diagnostic, therapeutic and preventive modalities and the skills of clinicians and to guide clinical practice in methodology.
