## Laboratory of Germ Cells

### Job description

- Scientific research activities and participation in national and international research projects focused on fish reproduction and developmental biology;
- Independent execution of experiments, including data collection and analysis using advanced molecular methods;
- Independent evaluation of results and their publication in English;
- Consulting and advisory activities in the field of reproductive biology;
- Work with model fish species – zebrafish (*Danio rerio*) and turquoise killifish (*Nothobranchius furzeri*);
- Collaboration in the preparation of scientific and professional conferences or seminars;
- Professional support in teaching activities within university-level education;
- Ensuring the routine operation of the laboratory, including administration related to laboratory management.

### We request

- Completion of a doctoral study program (Ph.D.) in fisheries, agriculture, natural sciences, or veterinary sciences;
- English language proficiency at least at B2 level, both spoken and written;
- Active publication record in the biological sciences;
- Work experience (minimum 2 years) in a laboratory focused on animal biology and/or reproduction;
- User-level computer skills – MS Office (Word, Excel, PowerPoint, Outlook);
- Experience with conference or seminar presentations;
- Strong communication skills, ability to work independently, systematic approach, responsibility, goal orientation, attention to detail, organizational skills, willingness to learn new things, and ability to work under stress;
- Good health condition.

### We offer

- Engaging work in an international and rapidly growing team;
- A pleasant and supportive working environment;
- Newly built experimental laboratory facilities;
- Opportunities for personal and professional development, including language and employee training courses;
- Attractive employee benefits, including 5 weeks of vacation, 4 days of sick leave, meal benefits, opportunities for exciting stays abroad, discounted mobile plans, and preferential banking services with a partner bank.

**The beginning of the work contract:** March 2026
