## Assistant Professor (m/f)

---

The Department of Medical Biology at the Faculty of Science, University of South Bohemia in České Budějovice, is opening an academic position for researchers who wish to develop their own research direction, supervise students and be part of an open, international academic environment.

The position is suitable both for Czech researchers returning from abroad and for international candidates seeking a long-term, stable yet flexible academic career. For us, it is not just about publications and grants, but also about education, collaboration and long-term professional development.

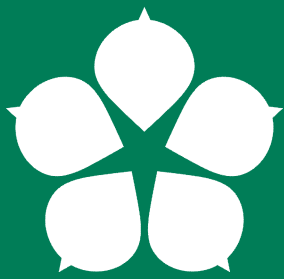

---

### What you will be doing:

- ✓ Hold a full-time academic position in a dynamically developing department with growing student interest
  - ✓ Build and lead your own research group, including the possibility of receiving start-up funding
  - ✓ Conduct research in high-quality laboratory facilities enabling immunological, microbiological and biochemical experiments (BioSafety Level II, work with laboratory animals) and actively engage in interdisciplinary collaboration
  - ✓ Work in the attractive location of České Budějovice, which offers a high quality of life
- 

### We require:

- A higher education degree in the natural or medical sciences
  - Completed doctoral studies (PhD) in molecular biology, genetics, biomedical sciences (e.g. immunology, microbiology) or related fields
  - At least 2 years of professional experience following the Ph.D. award
  - Significant international research experience lasting at least 1 year
  - Ability to independently initiate, develop and lead one's own research programme in the field of biomedical research (e.g. immunology, metabolism, infectious biology, cancer biology, etc.)
-

- 
- Active involvement in grant competitions and the preparation of research projects
  - Supervision of undergraduate, master's and doctoral theses for students at FSC USB
  - Involvement in teaching in Czech and/or English
  - Ability to work in an international academic environment
- 

## What you can look forward to with us

- Full-time position (100%)
  - Fixed-term contract with the possibility of extension
  - Flexible working hours
  - 8 weeks of paid leave
  - 4 days of sick leave
  - Meal vouchers, discounted mobile phone tariffs and banking services, access to the university preschool
  - Financial bonus upon reaching the age of 50, financial bonus upon the birth of a child, financial contribution towards supplementary pension insurance or supplementary pension savings
  - Contribution towards childcare for employees' children up to the age of 3, option to use summer day camps for primary school pupils for employees' children
  - Staff training courses
  - Creative higher education institution environment
  - Creative freedom, support for professional and personal development
- 

Start date: from 1 October 2026, no later than 1 January 2027

Please send written applications (**CV including a detailed description of research outputs, project experience, international collaboration and a presentation of your research proposal**) electronically to [jobs@prf.jcu.cz](mailto:jobs@prf.jcu.cz) **by 17 May 2026.**
