Faculty of Agriculture
and Technology

Jihočeská univerzita
v Českých Budějovicích
University of South Bohemia
in České Budějovice

ABOUT

THE FACULTY

110 academic staff members

10 departments

18 degree programmes

1 faculty farm with livestock

5 horses grazing right on campus

8 lager tanks in the faculty micro-brewery holding our own beer Čtyrák

COUNTLESS new experiences and endless knowledge for life...

Reasons to study at our faculty

- We are one of the oldest faculties of the University of South Bohemia and we are an integral part of the agricultural tradition of the region.
- We cooperate with a number of top-class international facilities – universities in Europe, Canada, Brazil... and many others.
- Students may undertake internships in almost all corners of the world.
- We boast an attractive study environment and friendly academic staff.
- We intensively cooperate with agricultural businesses and the studies are closely connected to practical application.
- All buildings and classrooms are on the same campus and within walking distance.
- We conduct high-quality research and develop modern technologies not only for agriculture.
- We also endeavour to prepare students for the labour market and support our graduates.

Incoming mobilities

There are several programmes and scholarships that you can apply for and spend a semester or two at our faculty.

- **ECTS:** 30 credits/semester, 120 in total
- **Awarded degree title:** Agricultural engineer

How to apply?

Further information: International Relations Office
Karla Dvořáková, kdvorako@fzt.jcu.cz

The programme stems from a broader approach to agriculture that involves agricultural enterprises combining sustainable agricultural production and activities such as product processing at farms and their sale as well as agrotourism.

The programme is divided into four thematically linked semesters:

- Biological base of agriculture
- Conventional farming
- Organic farming
- Landscape management
